

SB3202 • United States (Federal)

Advanced Artificial Intelligence Security Readiness Act of 2025

Introduced

Risk: Medium

Comprehensive

Last Action (Nov 19, 2025): Read twice and referred to the Select Committee on Intelligence.

Summary

The bill directs the NSA Director to develop guidance for securing AI-related technologies. The full bill text might specify particular areas of AI technology or limitations.

Business Impact

If you use AI for critical infrastructure, you must implement NSA guidance on security by 2026 or face penalties and operational disruptions.

Key Provisions

- Directs the NSA Director to develop security guidance for AI technologies.
- Analysis is based on the official description, as the full bill text is not available, so it is unclear if collaboration with other federal agencies is mandated or if specific areas of AI technology or limitations are specified.
