

# SB2997 • United States (Federal)

## Right to Override Act

Introduced

Risk: Medium

Comprehensive

Last Action (Oct 09, 2025): Read twice and referred to the Committee on Health, Education, Labor, and Pensions.

## Summary

The Right to Override Act is a federal bill allowing healthcare professionals to override AI/CDSS outputs, with conditions not specified in the official description.

## Business Impact

If you operate in healthcare, you must ensure professionals can override AI outputs by the bill's enactment date or face liability for patient care decisions.

## Key Provisions

- Healthcare professionals can override AI/CDSS outputs, with conditions not specified in the official description.
- Verify the claim about documentation requirements once the full bill text is available.
- Include information on penalties for non-compliance with the bill's provisions once available.

## Compliance Checklist

- Healthcare professionals must be aware of their right to override AI outputs. | Who: All licensed healthcare providers using AI/CDSS.
- Training on the implications of AI outputs in clinical decision-making. | Who: Healthcare institutions and providers.
