

# H0792 • Vermont

## An act relating to liability standards for developers and deployers of artificial intelligence systems

Introduced

Risk: Medium

Comprehensive

Last Action (Jan 28, 2026): Read first time and referred to the Committee on Commerce and Economic Development

## Summary

Bill H0792 aims to establish liability standards for AI developers and deployers in Vermont. Consult the Vermont legislative website for accurate details.

## Business Impact

If you develop or deploy AI in Vermont, you must comply with new liability standards once established.

## Key Provisions

- Consult the Vermont legislative website for specific definitions and responsibilities outlined in the bill.
- Verify the responsibilities of AI developers and deployers with the actual bill text.
- Review the Vermont legislative website for potential impacts on stakeholders as discussed in the bill.

## Compliance Checklist

- Implement safety and reliability measures for AI systems | Who: Developers and deployers of AI systems | Penalty: Potential legal liability for damages
