Urging Congress To Begin A Discussion Considering The Benefits And Risks Of Artificial Intelligence Technologies.

Passed Both Chambers

Risk: Medium

Study/Task Force

Last Action (May 22, 2023): Certified copies of resolutions sent.

Summary

This resolution urges Congress to discuss the benefits and risks of AI technologies, including their use in public sector identification and military technologies.

Business Impact

If you develop or use AI technologies, you must stay informed about potential regulations and ethical guidelines to avoid future compliance issues.

Key Provisions

- Urges Congress to discuss the benefits and risks of AI technologies.
- Highlights the potential dangers of job loss due to automation.
- Addresses concerns about bias and discrimination in AI systems.
- Raises issues related to privacy and security of personal data.
- Calls for the evaluation of AI in public sector identification and military technologies.
- Suggests the adoption of universal safety guidelines for AI.
