

SB468 • California

High-risk artificial intelligence systems: duty to protect personal information.

Unknown

Risk: High

Comprehensive

Effective: Jan 01, 2026 | Last Action (Feb 02, 2026): Returned to Secretary of Senate pursuant to Joint Rule 56.

Summary

Requires AI deployers to implement security programs to protect personal data, aligning with California Consumer Privacy Act.

Business Impact

If you deploy high-risk AI in California, you must secure personal data or face deceptive trade practice penalties.

Key Provisions

- Covered deployers must implement a comprehensive information security program.
- Security programs must include administrative, technical, and physical safeguards.
- Non-compliance is deemed a deceptive trade practice under California law.
- The California Privacy Protection Agency may adopt regulations to enforce the bill.
- Programs must include employee training and third-party service provider supervision.
- Regular monitoring and review of security measures are required.

Compliance Checklist

- Develop and maintain a comprehensive information security program | Who: Covered deployers of high-risk AI systems | Penalty: Deceptive trade practice penalties
- Implement employee training on security procedures | Who: Covered deployers | Penalty: Deceptive trade practice penalties
