

# HB4711 • Illinois

## PROVENANCE DATA REQUIREMENTS

Introduced

Risk: Medium

Comprehensive

Last Action (Mar 27, 2026): Rule 19(a) / Re-referred to Rules Committee

### Summary

The Provenance Data Requirements Act mandates AI tool providers to apply provenance data to synthetic content, with penalties for non-compliance included.

### Business Impact

If you provide generative AI tools in Illinois, you must apply provenance data to synthetic content or face potential penalties.

### Key Provisions

- Generative AI tool providers must apply provenance data to synthetic content.
- Provenance application tools and readers must be made available to users and the public.
- Requirements for large online platforms and manufacturers of capture devices are included.
- Penalties for non-compliance are specified.
- Definitions for key terms such as 'synthetic content' and 'generative AI model' are provided.

### Compliance Checklist

- Apply provenance data to synthetic content | Who: Generative AI tool providers
- Make provenance application tools available | Who: Generative AI tool providers
- Retain and disclose provenance data | Who: Large online platforms
- Enable provenance data inclusion in captured content | Who: Manufacturers of capture devices
