

SB1507 • Illinois

VEH CD-SAFETY ZONES

Unknown

Risk: Medium

Study/Task Force

Last Action (Aug 15, 2025): Public Act 104-0381

Summary

The bill mandates a study on AI-powered cameras to improve traffic safety on North and South DuSable Lake Shore Drive in Chicago.

Business Impact

If you operate traffic safety systems in Chicago, you must prepare for potential AI camera implementations by an unspecified date or face regulatory scrutiny.

Key Provisions

- Conduct a comprehensive review of crash data on North and South DuSable Lake Shore Drive.
- Evaluate the effectiveness of AI-powered cameras in improving traffic compliance.
- Analyze driving behavior to identify risky patterns.
- Assess psychological deterrents for habitual speeding.
- Explore alternatives to AI-powered cameras for reducing fatalities.

Compliance Checklist

- Prepare for the implementation of AI-powered traffic safety measures | Who: Traffic safety system operators | Penalty: Regulatory scrutiny for non-compliance
- Participate in the study if requested | Who: Relevant stakeholders in traffic safety | Penalty: Potential exclusion from future initiatives
