

## CHATBOT RESPONSE LIABILITY ACT

Unknown

Risk: High

Comprehensive

Last Action (Mar 27, 2026): Rule 2-10 Committee Deadline Established As April 24, 2026

### Summary

The Chatbot Response Liability Act holds chatbot proprietors liable for misleading information and mandates user notification of AI interaction. It includes specific guidelines for minors.

### Business Impact

If you operate a chatbot in Illinois, you must inform users they are interacting with AI or face liability for harm caused.

### Key Provisions

- Prohibits liability disclaimers for misleading or harmful chatbot responses.
- Requires clear notification to users that they are interacting with a chatbot.
- Mandates parental consent for the use of companion chatbots by minors.
- Empowers the Attorney General to create compliance rules.
- Effective one year after becoming law.

### Compliance Checklist

- Notify users they are interacting with an AI chatbot | Who: Chatbot proprietors | Penalty: Liability for any harm caused by misleading information
- Obtain parental consent for companion chatbots used by minors | Who: Proprietors of companion chatbots | Penalty: Liability for harm caused without consent
