Risk: High

Comprehensive

Last Action (May 21, 2026): REPORTED AND COMMITTED TO FINANCE

## Summary

The New York AI Act regulates AI systems to prevent algorithmic discrimination, mandates independent audits for high-risk systems, and includes enforcement by the attorney general and a private right of action. The definition of high-risk AI systems and specific audit requirements are not specified in the provided bill description.

## Business Impact

If you operate high-risk AI systems in New York, you must conduct independent audits by 2025 or face legal action and penalties.

## Key Provisions

- The bill regulates the development and use of AI systems to prevent algorithmic discrimination.
- Independent audits for high-risk AI systems are required, though specific requirements are not detailed in the provided bill description.
- Enforcement by the attorney general is distinct from the private right of action.
- The definition of high-risk AI systems is not specified in the provided bill description.

## Compliance Checklist

- Conduct independent audits of high-risk AI systems | Who: Developers of high-risk AI systems | Penalty: Potential enforcement actions by the attorney general
- Inform end users about AI involvement in decisions | Who: Deployers of high-risk AI systems | Penalty: Legal liability for algorithmic discrimination
