

# A 11119 • New York

Requires legislative members to verify attendance on legislative session days via an identification card system and facial recognition technology.

Introduced

Risk: Medium

Comprehensive

Effective: Jan 01, 2027 | Last Action (Apr 24, 2026): referred to governmental operations

## Summary

This bill mandates New York legislative members to verify attendance using an ID card and facial recognition technology on session days.

## Business Impact

If you operate within the New York legislature, you must implement facial recognition attendance verification by January 1 or face compliance issues.

## Key Provisions

- Members must verify attendance using a biometric facial recognition system.
- The bill requires the use of ID cards and facial recognition technology.
- The bill does not specify privacy measures, penalties for non-compliance, or installation details.

## Compliance Checklist

- Implement biometric facial recognition attendance verification system | Who: New York State Assembly and Senate members | Penalty: Compliance issues may arise
- Ensure identification card readers are equipped with facial recognition technology | Who: Legislative chambers | Penalty: Compliance issues may arise

## Industries Affected

Law Enforcement

Technology

## Topics
