

AB 412 • California

Generative artificial intelligence: training data: copyrighted materials.

In Committee

Risk: High

Comprehensive

Effective: Jan 01, 2026 | Last Action (Apr 27, 2026): Re-referred to Com. on RLS.

Summary

This bill mandates developers of generative AI to document training data sources and respond to rights owner inquiries about copyrighted materials used. Exemptions apply for models trained on publicly available data.

Business Impact

If you develop generative AI in California, you must document training data and respond to rights owner requests by January 1, 2026, or face legal action.

Key Provisions

- Developers must document covered materials used in training generative AI models.
- A mechanism for rights owners to request information about their materials must be provided.
- Developers have 30 days to respond to rights owner requests with relevant information.
- Each day of non-compliance after the 30-day period constitutes a discrete violation.
- Rights owners can bring civil actions against developers for failure to comply.
- Exemptions apply for models trained exclusively on publicly available data.

Compliance Checklist

- Document all copyrighted materials used in training AI models. | Who: Developers of generative AI systems. | Penalty: Daily violations may lead to civil actions.
- Provide a mechanism for rights owners to submit information requests. | Who: Developers of generative AI systems. | Penalty: Failure to comply may result in civil actions.
