

AB325 • Nevada

Revises provisions relating to artificial intelligence. (BDR 36-393)

Passed Both Chambers

Risk: Medium

Comprehensive

Last Action (May 30, 2025): Chapter 123. (Effective October 1, 2025)

Summary

The bill mandates that emergency management plans exclude final decisions made by AI and prohibits utilities from relying solely on AI for service decisions during emergencies.

Business Impact

If you operate a public utility in Nevada, you must ensure that final decisions on service reductions during emergencies are not made solely by AI.

Key Provisions

- Defines artificial intelligence in the context of emergency management.
- Requires emergency management plans to exclude AI from final decision-making.
- Prohibits public utilities from making service decisions based solely on AI.
- Ensures human oversight in emergency response planning.
- Applies to both state and local governmental agencies.
- Addresses resource allocation decisions during emergencies.

Compliance Checklist

- Ensure emergency management plans explicitly state AI cannot make final decisions. | Who: State and local governmental agencies
- Review utility decision-making processes to exclude AI from final service decisions. | Who: Public utilities
